## NEWS BY TELEGRAPH

### GATHERING GLOOM!

The President's Case Has Taken An-  
other Unfavorable Turn.

He is Probably Too Weak to Overcome  
Blood Poisoning.

The Wound Has Been Growing Worse  
For Two Days.

And the Lung Complication Gives Him  
More Trouble.

There Seems Only a Faint Hope That  
He Will Rally.

The Official Bulletins Have Lost Their  
Encouraging Tone.

Hope Has Given Place to Anxiety, and  
The Worst is Feared.

Don Miguel A. Otero's Mission to Den-  
ver.

A Conference With Gov. Evans About  
Railroad Matters.

By Which Las Vegas Will Secure An-  
other Road.

A Record of the Current Topics of the  
Day.

### The Wounded President. GROWING WORSE.

Elberon, Sept. 16.—At the examina-  
tion of the President at 8:30 this morn-  
ing his temperature was 98.6, pulse 104,  
respirations 12. The febrile rise during  
the night was not as pronounced as it  
usually has been. There has, at times,  
been considerable acceleration of pulse.  
He, however, slept comparatively well,  
and took stimulants and nourishment  
as directed. The cough was somewhat  
more troublesome during the first part  
of the night, and expectorations were  
rather more purulent. The discharge  
from the wound was less abundant  
and not quite as healthy in appearance.  
His pulse, however, has more volume,  
and his general condition does not  
seem to have materially changed in any  
respect.

Signed, D. W. BLISS,  
F. H. HAMILTON.

### GRAVE ANXIETY.

The situation this morning is less fa-  
vorable, and grave anxiety is expressed  
as to whether the President will be able  
to overcome the results of his extreme  
debility. Bed sores have again made  
their appearance, and the discharge  
from the wound is very unsatisfactory.  
While there are no new complica-  
tions in the President's case, his gen-  
eral condition indicates that he has not  
made any gain during the past forty-  
eight hours, in fact there has been a  
slight falling off. The wound has as-  
sumed a more unhealthy appearance,  
and the discharge has been growing  
more unsatisfactory since yesterday  
morning. Small bed sores have again  
made their appearance. Dr. Boynton  
says he still hopes the president will  
be able to pull through. His mind has  
been somewhat disturbed during the  
day as well as during the night, and  
there is still a continuance of suppu-  
ration of the parotid gland. On the  
whole, the situation is one of anxiety.  
The surgeons and attendants, however,  
express themselves in hopeful terms.

### CONTRADICTION.

Col. Rockwell, one of the President's  
attendants, is authority for the statement  
that perspiration, which has been one  
of the annoying features of the  
President's case, has reappeared. Col.  
Rockwell and Swaim entertained a dif-  
ferent opinion, and declare it has not  
reappeared.

It is reliably asserted that the Presi-  
dent's pulse reached 130 during the  
night, notwithstanding the fact that the  
febrile rise was not so pronounced as  
usual.

### MACVEAGH'S LINGERING HOPE.

The President's condition at this hour  
is unchanged. MacVeagh considers the  
case as warranting extreme anxiety,  
but maintains that while there is no  
particular point which can be said to  
have developed to an alarming extent,  
the general condition, which includes  
the extreme debility of the patient, is  
necessarily one of grave apprehension.

Dr. Bliss says there was a slight  
febrile rise commencing at 11 a. m.,  
which continued until near 12 o'clock.

### OPINION OF THE "LANCET."

London, Sept. 16.—The Lancet says:  
"The reason of the trouble with Presi-  
dent Garfield's lungs is their hypostatic  
condition and congestion of their bases  
because of depressed respiration arising  
from long recumbency. Sitting up will  
probably give much relief, but until all  
signs of affection of the lungs have dis-  
appeared, the hopeful prognostic con-  
stantly cabled here is not well founded,  
although it may prove a lucky guess."

### NOON EXAMINATION.

At the noon examination the patient's  
pulse was 114, temperature 99.6, respi-  
ration 21. At this hour his pulse is 108  
and temperature not much above nor-  
mal. The patient was not placed in  
his chair to-day on account of the febrile  
rise.

New York, Sept. 16.—Specials from  
Long Branch are of a gloomy character  
and express the belief that another

crisis in the President's case is near at  
hand.

### OFFICIAL BULLETIN.

Elberon, Sept. 16.—6:30 p. m.—At the  
examination of the President at 1:30 to-  
day, his temperature was 98.8, pulse 116,  
respiration 21. At the evening dressing  
his temperature was 98.6, pulse 104, respi-  
ration 22. The slight febrile rise which  
occurred at 11 a. m. had entirely sub-  
sided at noon. The condition of the  
wound remains unchanged. His cough  
has not been so frequent or persistent  
but the sputa still remains purulent.  
Nourishment and stimulants have been  
given in increased quantities without  
discomfort. Altogether his general con-  
dition cannot be said to be improved.

Signed, D. W. BLISS,  
F. H. HAMILTON,  
D. H. AGNEW.

### ONE LITTLE RAY OF HOPE.

Elberon, Sept. 16.—Dr. Boynton says:  
"The President is suffering from the  
effect of blood poisoning and it is de-  
cided and apprehensive. I hope he  
will overcome the extreme loss of  
strength and rally, but it is a question  
whether he will. I see a very gradual  
but sure descent in his case. He has  
his ups and downs, his bright days and  
dull days, but looking back and follow-  
ing the case to the present, I have been  
discouraged, but have not lost hope  
and will not, as I think he is going to  
pull through, but it will be a tedious  
and wearisome work for him. The  
wound has commenced to look less fa-  
vorably yesterday morning, and has  
grown worse ever since. The discharge  
is thin and watery. He is extremely  
weak, but there are no complications  
with the exception of the appearance  
of bed sores. I do not think the patient  
would be able, in his present debilitated  
condition, to undergo another complica-  
tion such as he has already encoun-  
tered."

### MACVEAGH TO LOWELL.

Elberon, Sept. 16.—There has been no  
very marked change in the President's  
condition, but it is not at this hour re-  
assuring. The different symptoms are  
almost all slightly aggravated. His  
temperature and pulse have fluctuated  
more than usual, and respiration was  
rather more frequent, while the charac-  
ter of discharges continue to be unsat-  
isfactory. There is therefore a sensible  
increase of anxiety.

Signed, MACVEAGH.  
Cols. Swaim and Rockwell think the  
President will rally.

### New Railroad for New Mexico.

Denver, Sept. 16.—The Republican  
says: Don Miguel A. Otero, of Las Ve-  
gas, is in the city. In course of conver-  
sation with a reporter he admitted that  
he had come here at the invitation of  
Gov. Evans, and that they had done  
considerable talking about the con-  
struction of a railroad and telegraph  
line from the southern line of Colorado  
to Socorro, N. M. The project has al-  
ready been considered by New Mexican  
capitalists, and Evans is desirous of  
utilizing it as a connection of the Den-  
ver & New Orleans. No organization  
has yet been formed, but Otero pre-  
sumed that articles of incorporation  
would be prepared soon after his return  
to Las Vegas next week.

The name of the organization will  
probably be the Denver, Las Vegas and  
Socorro Railroad Company. The  
amount of capital is not yet decided  
upon. Otero expected a corporation to  
be made with the road recently incor-  
porated to build a line from Socorro  
southwest along the Black Range,  
through the Mogollon district, along the  
Gila River to Tucson, thence to  
some port south of Guaymas on the  
Gulf of California. No alliance has yet  
been made with the Denver & New Or-  
leans Road, but he expected great  
things from the New Mexican scheme  
in any event.

### Snow Storm in Iowa.

Chicago, Sept. 16.—Reports received  
from Creston, Iowa, say a storm of  
snow has been prevalent there since  
morning, and quite a general storm is  
reported in Southern Minnesota. Noth-  
ing confirmatory has been received,  
but the report is believed to be cor-  
rect.

Des Moines, Sept. 16.—Snow fell be-  
tween Atlantic and the city to-day in  
such amount that the Rock Island train  
men made a large snow ball, which they  
left here. A cold rain fell here.

It has been unusually cold for several  
days in this vicinity, the thermometer  
never going higher than 58 and dropping  
to 41. Snow fell all along the  
Rock Island, between Desoto and  
some point in Nebraska. The snow is  
two inches in depth at Omaha. The  
tops of cars on the Rock Island on ar-  
riving here this afternoon were covered  
with snow, and the brakemen were  
snow-balling.

McGregor, Ia., Sept. 16.—A snow  
storm has prevailed all day in north-  
western Iowa, coming from a north-  
westerly direction, and reaching as far  
east as Algona, Kosciusko County, Iowa.  
At the latter point it fell to a depth of  
four inches.

### Desperate Attempt at Escape.

San Francisco, Sept. 16.—A Portland  
dispatch says: This morning Edward  
Mordaunt, an escaped convict, who it  
was supposed leaped overboard from the  
steamer Columbia below Astoria, was  
found stowed away in the vessel.  
Mordaunt, on being discovered, leaped  
into the river and attempted to swim  
ashore, but was seized with cramps, and  
shouting for help was rescued and  
brought on board, when it was found  
that he had broken his shackles. He  
was sent to the penitentiary at Salem  
to-day.

### Short Potato Crop.

Washington, Sept. 16.—Reports to the  
Department of Agriculture show the  
general average condition of the potato  
crop on September 1st was 70 per cent.,  
which is a decline of 22 per cent. since  
August 1st. Condition last September  
90 per cent. Severe and protracted  
drought is the chief cause of the un-  
favorable outlook, though there are se-  
rious complaints in localities of insect  
injuries.

### Denver Races.

Denver, Sept. 16.—There was an im-  
mense crowd at the Fair Grounds to-  
day. It is estimated that from 6,000 to  
8,000 people were present.

### EQUESTRIENNE CONTEST.

The six mile equestrienne contest was  
the first that was called. Each rider in  
this race was allowed three horses. The  
entries were Miss Davis, Miss Dickson,  
and Mrs. Reniker. A good send-off  
was secured, and Miss Dickson took the  
lead, retaining it for nearly two miles,  
when Miss Davis went to the front.  
Mrs. Reniker was unfortunate in her  
horses, and gradually fell behind, hard-  
ly figuring in the race. The race was  
close between Misses Davis and Dick-  
son, the two alternating in the lead.  
On the 1th half mile Miss Dickson took  
the lead, and retained it to the finish,  
coming in a hundred yards in advance.  
Mrs. Reniker was over a half mile in  
the rear. Time—Dickson, 12:54; Davis,  
13:01; Reniker, 14:20.

### NOT ON THE PROGRAM.

The trotting race for the 2.35 class  
was not called. The entries were Big  
Ike, Eli Ho, Dan Brown, Teaser and  
Little Crow. A large amount of pools  
were sold on this race, Big Ike being  
the favorite. While scoring for the first  
heat Teaser, in turning, veered to one side  
and struck the horse of Marshall Haw-  
ley, standing near the fence. The sulky  
was overturned and the horse, becom-  
ing frightened, started off on a run.  
M. C. Wilbur, the driver, became en-  
tangled in the harness and was dragged  
some thirty feet when he became dis-  
engaged, being unhurt. The horse  
kept running with the sulky striking  
his heels. At the first turn he collided  
with the sulky of Echo, knocking a  
wheel off the latter sulky. He kept on,  
riding himself of the buggy, and after  
twice running around the track, went  
out among the buggies on the outside,  
nearly jumping a fence. He was finally  
caught, and to the surprise of all was  
unhurt. This caused delay in the race,  
during which the pacing race was  
called. The following were the entries:  
Sucker State, Duster and Mountain  
Maid. Duster won the first, third and  
fourth heats, Sucker State winning the  
second money. Time, 2:33 $\frac{1}{2}$ , 2:40 $\frac{1}{2}$ , 2:35 $\frac{1}{2}$ .

### Mining Stock Market.

New York, Sept. 16.—The mining as-  
sociated press reports that there is  
much greater activity in mining stocks  
than for some time, and fluctuations  
have been frequent, though in most  
cases not wide. Comstocks have been  
very strong in sympathy with the San  
Francisco market, but much doubt is  
expressed here concerning a continu-  
ance of the boom. Little stock was  
taken by old operators in reported  
strikes in Sierra Nevada. Mining stocks  
in general, outside of Comstocks, are  
considered low, and indications point to  
higher prices in the future. The new  
water pipe for the State Line mines has  
been shipped, and the completion of  
the pipe line is anxiously awaited, as an  
advance is then expected. Leadville  
stocks are coming to the front again,  
and show a marked improvement.  
Chrysolite is leading the advance, and  
sold up to-day at \$750. Bullion receipts  
in New York for the week from the  
mines, were \$308,364. Sales of mining  
stock at both exchanges were about  
800,000 shares.

### Arizona Adverses.

### TIFFANY'S TRIFLING.

San Francisco, Sept. 16.—A Tucson  
dispatch says a special from Wilcox to  
the Citizen says: Permission to enlist  
any more Mohaves of Yumas for scouts  
has been refused by Agent Tiffany to  
Col. Biddle. Tiffany's refusal is un-  
called for, as the scouts are indispen-  
sible.

### FORTIFIED REDS.

Squam came into the sub-agency yester-  
day and reported that a party of hos-  
tiles, sixty-four strong, well armed and  
with supplies of cartridges, are fortified  
on the Apache and San Carlos trail,  
near the north side of Black River,  
near the scene of the recent Apache  
raid. Some hostiles came close to the  
reservation and tried to have a talk  
with reservation Indians night before  
last. It is thought that the hostiles  
have been lately moving toward Cibola.

### A Fire in Rome.

Rome, N. Y., Sept. 16.—This morn-  
ing a fire at East Rome burned the Mo-  
hawk house, the soap works of Bodock  
Bros., and four dwellings. Loss \$40,-  
000. Later in the day the Union freight  
depot, four loaded cars and over twenty  
dwellings burned. Loss \$100,000.  
Plenty of insurance. A lot of cordwood  
piled along the line of the R. W. & O.  
R. R. fired to-day, burning the track  
and twisting the rails for six miles.

### Trans-Oceanic Cablegrams.

NATIONAL LAND LEAGUE CONVENTION.  
Dublin, Sept. 16.—In reassembling the  
National League Convention, Parnell  
announced that he had an interview  
with the laborers' deputation, and they  
agreed upon a common line of action in  
regard to the interests of laborers.

### THE DONCASTER CUP.

London, Sept. 16.—The Doncaster cup  
was won by Petronel.

### EXPULSION OF SOCIALISTS.

Berlin, Sept. 16.—There were fresh  
expulsions of socialists the last few days.  
The police prohibit all meetings in  
which socialists are likely to partici-  
pate.

### A JEWISH CONVENTION.

St. Petersburg, Sept. 16.—The Cen-  
tral Committee decided to convene a  
meeting of deputies representing all  
the principal communities of Jews in  
Russia to deliberate upon their appar-  
ently hopeless situation.

### Hope Racket.

Rock Island, Sept. 16.—Payman Ag-  
allor, for wantonly murdering Mr. and  
Mrs. Thos. Dilly, for whom he worked  
and with whom he resided, was hanged  
at Cambridge, Ills., to-day.

### Jewelry Robbery.

Buena Vista, Sept. 16.—Kelley's jew-  
elry store was robbed last night of eight  
gold watches and several silver watches  
and chains. Value \$1,000.

### Northern Pacific Elections.

Chicago, Sept. 16.—A New York spe-  
cial says: Over \$61,000,000 out of the  
\$91,000,000 of stock of Northern Pacific  
Railroad Company was represented to-  
day at the annual meeting of stock-  
holders of that company. This was a  
much larger representation than was  
ever before present at a meeting, but  
the opposition to the Villard syndicate  
was unavailing. The following gentle-  
men were elected directors: Frederick  
Billings, A. H. Barney, John W. Ellis,  
R. G. Ralston, Robert Harris, Thomas  
F. Oakes, A. H. Hollis, Henry Villard,  
of New York, J. L. Stackpole, Elijah  
Smith, Benj. P. Cheney, Boston; John  
C. Bullitt, Philadelphia, and Henry E.  
Johnston, of Baltimore. The directors  
immediately elected Villard President,  
and made Thos. F. Oakes Vice-Presi-  
dent, Anthony J. Thomas second Vice-  
President, and Sam'l J. Wilkinson  
Secretary. The annual report pre-  
sented to the stock-holders shows the  
company has 1,085 miles of road in op-  
eration, exclusive of sidings. The earn-  
ings for a portion of the year end-  
ing June last were, from 754 miles  
against 723 in '80, and exhibit an in-  
crease of \$764,337.

### Under Car Wheels.

Golden, Colorado, Sept. 16.—Charles  
Anderson, aged nine years, yesterday  
was fatally hurt on the railroad near  
here. He attempted to jump off the  
train while in motion, and was thrown  
under the wheels, having his right arm  
and right leg severed from the body,  
from which he died in a few hours.

### Our Invitation Accepted.

Washington, Sept. 16.—The Depart-  
ment of State learns that the invitation  
of the United States representatives to  
Baron Steuben to attend the Yorktown  
centennial has been accepted with great  
appreciation by seven prominent of-  
ficers of the German army.

### Oakland Races.

San Francisco, Sept. 16.—At the Oak-  
land race track to-day the final heat  
of the four-year old trotting race, which  
was begun yesterday, was won by Ro-  
mero in 2:24. The result was a surprise,  
pools having stood 20 to 1 against Ro-  
mero. About 5,000 persons witnessed the  
race.

### Christianity's Ill Luck.

Washington, Sept. 16.—A casket con-  
taining six thousand dollars in jewelry  
and coin, which was entrusted to Sena-  
tor Christianity for safe keeping, was  
stolen from his room at the National  
Hotel to-day.

### American Pomological Society.

Boston, Sept. 16.—The American Po-  
mological Society adjourned after  
adopting a resolution expressing horror  
at the attempt on the life of the Presi-  
dent, and deep sympathy with him and  
family.

### Railway Mishap.

Vicksburg, Sept. 16.—The west bound  
train ran off the track near Edwards  
depot this morning. The sleeping car,  
a passenger car and the Superinten-  
dent's car were thrown from the track.  
Many passengers were injured—six se-  
riously.

### Boiler Explosion.

Des Moines, Sept. 16.—An explosion  
of the boiler in Card & Co.'s saw mill  
Monday morning, Jasper County, resulted  
in the instant death of E. M. Garland,  
and fatal injury of M. L. Card.

### Quick Time.

St. Louis, Sept. 16.—The Pennsylva-  
nia Railroad Company will soon reduce  
the time between New York and St.  
Louis, via Indianapolis, to twenty-eight  
hours.

### Boston Wool Market.

Boston, Sept. 16.—This has been an-  
other active week in the wool market.  
There were 5,082,000 pounds of all kinds,  
making for the past two weeks nearly  
11,000,000 pounds that have been dis-  
posed of in this market. The demand  
has been almost exclusively from man-  
ufacturers. Some lots have been taken  
on Philadelphia account, but otherwise  
there has been little or no speculation.  
Prices are quite firm, and advanced 1  
to 1 $\frac{1}{2}$  cents per pound on fine fleeces.  
The demand for fine wools has been  
quite active, and manufacturers have  
been free purchasers. Sales ranged  
from 41 to 43 for x and xx for Ohio  
and Pennsylvania, 42 to 45 xx and  
above, including some large lots at  
the latter rate, and x and xx fleeces  
now firm at 43 to 44. Michigan x fleeces  
which have been sold to some extent at  
40 to 42, and one lot at 42 $\frac{1}{2}$ , are now held  
at 42 to 42 $\frac{1}{2}$ . Medium and Ohio have  
been sold at 45 to 47, and medium and  
No. 1 Michigan at 43 to 45. In unwashed  
fleeces there have been quite large  
transactions, comprising some 135,000  
pounds. Fall prices are as high as 32  
for fine unwashed, and as high as 34 to  
35 for medium. Colorado carpet wool  
has been sold to some extent at 18 $\frac{1}{2}$  to  
20c per pound. California wool has  
been in better demand. There were  
sales of 450,000 pounds at full prices.  
In coming and delaine wool there is a  
good business to-day. Fine delaine is  
taken as fast as offered at 45 to 47; fine  
No. 1 coming 47 to 48. Unwashed  
combing has been selling at 30 to 32, as  
to quality.
